## Virtual Tour - Explore The Caribbean like a bird...

### [magic-caribbean.com](http://magic-caribbean.com)

This will be the place to explore The Caribbean in a totally new and spectacular way. Like a bird... From Tobago to St. Lucia, from Grenada to Carriacou - from waterfalls to remote beaches.

**Plus:** From Hotels to Villas and Guesthouses. We want to show the beauty of the Caribbean and its hospitality!

### The place to be...

There is no other tool, that will show places in The Caribbean like [magic-caribbean.com](http://magic-caribbean.com). It's the amazing interactivity, that makes the difference.

### "Wow!"

*That's what I hear all the time, when I show our website to locals and international guests alike. And they are all right with their WOWs: the first time it is possible to explore The Caribbean just by click. WOW!*

*„I am happy to assist you, if you have any questions how to join [magic-caribbean.com](http://magic-caribbean.com)."*

*Sven Diers*

### Cool scenes...

You decide, what to look at and how to watch the locations. By clicking and navigating with your mouse or fingers - easy as that! It is working on all devices, but the best performance you will experience on a bigger screen or notebook.

Watch Caribbean Highlights, fine hotels, villas, guesthouses or even properties to buy. We will have it all - and if not, feel free to join us. Please see the options to participate on the next page.

### How does this work?

We will set up a meeting at your place for a little chat and the shooting. In case you book option 3 (your own virtual tour) we might have to stay 1-3 nights for the shooting according to the weather conditions/the best light and the "vibes" of your place and attractions nearby.
